TILE COLLECTIONS FOR HOMEOWNERS AND DESIGNERS

Claybrook.

Welcome to the latest collection of tiles to be launched by the talented team from Claybrook (even if we do say so ourselves!).

We believe that great design can change the way we both live and work. In love with timeless forms, well-crafted materials and products that look and feel just right, these new ranges have made us proud to be showcasing the skills of our artisans and producers world-wide. Our Old Havana cement tiles took some time to launch as we scoured the globe for material that didn't look patchy or chalky. Crisp and clean and wonderfully vibrant, they also wear incredibly well, something that experience with the medium has taught us to be wary of. Cabana glazed bricks are in truly mouth-watering shades whilst the Lucerne porcelain replicates parquet just so brilliantly; photographed as a wall panel they add a new dimension for vertical tiling. Likewise, our Dorset Cove porcelain planks look amazing in the shot set up by our stylist and design team in a chevron pattern for the wall.

Right now, we're focused on tiles, but our portfolio is expanding to include other interior products – all equally as tactile and beautifully crafted and each chosen with longevity and durability at its heart. We have just launched our distinctive new oak wood flooring collection in planks and stunning parquet; with photography being available early October. Our beautiful new bathroom collections will follow later in 2018.

Alongside our website and showroom, our experienced London-based specification team work with architects, designers and specifiers in the selection process - harvesting materials for each unique project. With access to products from our own production facility and using our carefully chosen core collection, our team can offer solutions to a host of design needs and challenges.

We hope you enjoy seeing our latest product reveal.

SNEAK PREVIEW

On a trip to Cuba we were mesmerised by the intricacy of the floor tile designs. Based on our travels our Old Havana cement tiles are in vibrant shades and are great value, typically, half the price of our competitors despite the excellent quality. Our Metro Deco wall tile is used to counterpoint one of our new copper bath tubs launching later this year as part of our fantastic new bathroom offering.

POTTERS GLAZE ▲

In a sophisticated brick with just adorable colourways, these wall tiles have a sense of artisan craftsmanship that is ideal for how we live today. Informal but classic, they are brilliant contrasted with other subtle tones.

*73p each, £64.42m²
Five colours available*

OLD HAVANA

On a trip to Cuba we were mesmerised by the intricacy of the floor tile design almost everywhere we went. It seems that no matter if it's at home, at work or in a bar or cafe the Cubans love of colour and pattern seeps into everyday life. Our Old Havana cement tiles are in vibrant shades and playful designs based on our travels in this fascinating country, and look consistently fresh whilst standing up to the climate here in the Northern Hemisphere.

£2.80 each, £69.90m²

Ten patterns available

CABANA

The longer format and the amazing colours of our newest brick tile for walls and floors make a bang up to date statement but one that has longevity. We know that this practical glazed tile will be popular for years to come, as it can be laid in numerous ways that will always seem fresh.

£1.13 each, £69.94m²

Ten colours available

LUCERNE PANELS

We are loving the look of wood parquet right now but not necessarily from mother nature's own bounty. With dimensional cross hatching they embody all that is beautiful about wood laid in this way but with the added practicality that hard wearing porcelain brings. In a series of natural shade options, they even look great as a wall panel.

£54.47 each, £84.97m²

Four colours available

HAYEK HEX

We fell in love with the beautiful shades of our Hayek range when the samples arrived at Claybrook HQ. Combined with the graphic hexagon shape they make a bold but smart statement for walls and floors. In practical porcelain they will of course be easy to maintain too. What's not to love?

From £1.34 each, £69.89m² Five colours available

CABRERA >

Spanish hand decorated tiles have a style that never seems to date. Used in bathrooms, kitchens or even hallway walls for visual interest, these vibrant patterns add an exotic but wholly liveable feel to all schemes.

Base £1.19 each, £59.40m²

Decors £4.49 each

Various patterns/colours available

DORSET COVE

We love the smell of the sea at Claybrook HQ and escape to the coast as often as time allows. In a series of warm and welcoming tones our porcelain parquet tiles add a little seaside chic to spaces that require a functional but timeless look to anchor the design.

*£2.50 each, £39.94m²
Five colours available*

COASTAL GLAZE

These lovely square wall tiles have such subtle colours in soft coastal shades that we were instantly transported to the fresh air and mind cleansing rituals of the British coast. In bathrooms or kitchens these will add harmony and serenity to any interior scheme.

*79p each, £79.20m²
Eight colours available*

BROOKHAVEN MARBLE

Named after the pretty east coast American town that stretches from the north shore to the south shore of Long Island, these elegant marble tiles are so reminiscent of the chic bathrooms and powder rooms we saw in homes there. The ideal addition to any interior designed with a chic and elegant look in mind.

From £1.02 each, £94.86m²

Various mosaic patterns and sizes available

LUXOR

Stone can be such a sophisticated element to add to a scheme and Luxor doesn't disappoint. With soft rounded edges and a neutral pale surface it looks very smart with light veining and some small fossils.

*From £4.04 each, £44.89m²
Three sizes available*

ESNA

Darker than the Luxor, the Esna tile is in a warm cream shade but with the same mix of veining and visible fossil life that is natural to limestones. With a textured surface and lightly brushed, this tile will seem like it has been laid down for years.

*£4.50 each, £49.95m²
Three sizes available*

MALLAWI AND TALA

Our Egyptian stones have inherent subtly orchestrated style in a series of colours and finishes that feel as much at home in modern homes as classic ones. Melding beauty and practicality they look truly charming.

*From £5.40 each £59.94m²
Three sizes available*

CEDAR POINT

This replica marble porcelain has all the qualities we were looking for to contrast with warmer toned interiors. The veining is a subtle pale brown, the two sizes work well in smaller or larger areas and the larger size also comes in a polished format. The brick mosaic is particularly attractive and can be used in conjunction with the tile or alone for impact.

*From £8.92 each £49.93m²
Available in two sizes and a mosaic*

THE STUDIO

opening soon...

Our stunning new home in the heart of Shoreditch opens in early Autumn. Across two floors the studio showcases our full range of beautiful wall tiles, floor tiles and wood flooring.
