Installation Notes: These tiles will require sealing with LTP Porcelain Tile Protector. Tiles may vary up to 2mm in size and thickness due to the clay being hand pressed. For wall use only. We do not recommend the use of black or dark coloured grouts with a crackle glazed tile, especially with white or lighter coloured tiles. The dark grouts can leave a residue in the crazing or discolour the tiles. All tiles should be tested with the grout you are planning on using before installation.
